MODULAR METAL ROOFING TILE

IT'S HARD AS STEEL

26 GAUGE, G90, Z275

Supre is made from ArcelorMittal steel
– the largest steel producer
in the world.

Steel is durable

Steel roofing products have nearly twice the lifespan of conventional roofing products.

Steel is eco-friendly

Steel can be recycled endlessly, which makes it one of the most environmentally friendly materials.

Steel protects

Our steel roofing products have achieved the highest hurricane wind protection, hail impact and fire safety ratings in the US.

SUPRE PROTECTS MY HOME

The quality of our roofs has been recognized and certified by the Underwriters Laboratories. UL is the largest independent testing laboratory in the world. It is dedicated to promoting safe living and working environments.

Extreme weather and impact protection

Against hailstorms, rain, snow, heat and wind.

Our products have achieved Class 4 ratings according to the UL 2218 Roof Impact Classifications.

Fire protection

We got an "A" in fire protection according to the UL 790 (ASTM E 108) Fire Protection Ratings.

High wind protection

We achieved the Class 90 certification for the UL 580 Wind Uplift Resistance test. We have tested our products at wind speeds over 200 mph.

Covered with the Noble Matt coating, it effectively protects against long-term wear and provides maximum corrosion resistance in any conceivable application.

Stable and constant

The Noble Matt coating not only protects against discoloration, but also functions as an all weather shield.

It says no to re-roofing

Forget about re-roofing. Supre and Ulta will serve you reliably for generations. The steel and protective shield form a really powerful duo of protection.

IT HAS
A PROTECTIVE
SHIELD

SUPRE
IS EASY
TO INSTALL

Weight of one pack
2920 lb

Quantity per pack
350 pcs

Effective surface area of one pack
3032 sq. ft

Simple transport and storage

One pallet contains over 3000 sq. ft of material
– enough to cover an average size roof.

Easy to install

Pre-drilled holes and modular assembly speed up installation
and reduce mistakes.

Cost effective installation

Our products average less than 5% waste at the job site
compared to industry norms greater than 10%.

Take to the sky with Raven Black

A close-up photograph of a dark, wavy roof tile with a scalloped edge, set against a background of a dark, textured sky.

Ravens are very intelligent birds, which played an integral role in the mythology of the indigenous peoples of the Pacific Northwest, as well as art and literature. For many cultures the bird was a religious symbol. Some even believed that it was God. Raven Black.
The color of freedom.

Dive deep into the Pacific Gray

A close-up photograph of a medium-gray, wavy roof tile with a scalloped edge, set against a background of a blue, textured ocean.

The Pacific is the largest and deepest ocean on Earth. It covers almost 1/3 of the earth's surface. Its depth reaches more than 35 thousand feet. Pacific Gray.
The color of mystic nature.

Dare to conquer with Sierra Brown

A close-up photograph of a brown, wavy roof tile with a scalloped edge, set against a background of a rocky, mountainous landscape.

The Sierra Nevada is a mountain range in the Western United States. Its highest peak - Mount Whitney - reaches an elevation of 14,505 feet. Its depth reaches more than 35 thousand feet. The foothills of this mountain range are home to the California Gold Rush of the 19th century. Sierra Brown.
The color of a true conqueror.

Expirience Canyon Red - one of nature's true wonders

A close-up photograph of a reddish-brown, wavy roof tile with a scalloped edge, set against a background of a desert canyon with smooth, layered rock walls.

The Grand Canyon is the largest river gorge in the world, location in Arizona. It is 277 miles long, about 6,000 feet deep and the home of whitewater rafting. Canyon Red.
The color of adventure.

MATERIAL:

S280 GD + Z 275 +SP 35 – EN 10346:2015-09 (SS Grade 40 – ASTM A 653)

THICKNESS: 26 gauge

COATING: Noble Matt

A – Sheet total width – 46.85”-47.13” (1190-1197mm)

B – Sheet cover width – 44.88” (1140mm)

C – Fold height – 1.38” (35mm)

D – Wave height – 0.43” (11mm)

Total height 1.81” (46mm)

Sheet total length 28.50” (724mm)

Sheet cover length 27.56” (700mm)

Module length 13.78” (350mm)

Width between waves peaks 8.98” (228mm)

Sheet cover area 8.59 ft² (0.798m²)

Sheet weight 8.16 lb (3.7 kg)
